

## Sprint 4 Plan

- User story 1: As a customer, I want to be able to see my requested products in an organized UI.
  - Task 1: Polish the backend logic on checkoutProducts
  - Task 2: Link the logic to a polished version of the UI
- User story 2: As a customer, I want to be able to see which of the requested products I did not return and thus paid for.
  - Task 1: Copy the UI from checkoutProducts
  - Task 2: Modify the said UI to fit the purchaseHistory page
  - Task 3: Modify the backend logic in a similar fashion.
- User story 3: As a customer, I want to be able to look at the close descriptions of a product.
  - Task 1: Develop a way to store descriptions of products on MongoDB
  - Task 2: Develop UI for portraying individual product description pages
- User story 4: As a customer/business, I want to be able to make and login to the right type of account on ShopLink.
  - Task 1: Create a button that switches from customer to business and business to customer login site.
- Team Roles
  - Bobby
    - Product Owner
    - Developer
  - Romeo
    - Scrum Master
    - Developer
  - Jeffrey
    - Developer
  - Joshua
    - Developer
  - Joey
    - Developer
  - Cooper
    - Developer
- Initial Task Assignment

- checkoutProducts Polishing
  - Polish the backend logic on checkoutProducts
  - Link the logic to a polished version of the UI
